the proposed final judgement:

- * Fails to reduce the application barrier to entry that Microsoft was found to have illegally protected;
- * Fails to remedy the injury done to the Java^TM technology community;
- * Fails to remedy the illegal injury that Microsoft was found to have done to Netscape Navigator and the browser market;
- * Fails to curtail Microsoft's illegal bundling of middleware programs including browsers, media players, and instant messaging software into the monopoly Windows operating system;
- * Is ambiguous and subject to manipulation by Microsoft because it lacks an effective enforcement mechanism.
